September, 2023

Dear Students and Parents,

It's exciting to begin a new year of piano with each of you. After over 50 years of teaching, I enjoy it more than ever. And that's because of you! Great students and supportive parents make the experience very rewarding!

I'm pleased that you have chosen to study music, because it is so valuable. Music lifts our souls, builds self-esteem, is a creative and expressive outlet, develops discipline and learning skills and is just a really fun activity! The piano is a great instrument. Learning to play the piano provides a fantastic basis for learning music. To gain the most from your piano study, here are some important points to remember:

1. Come to your lesson each week at your scheduled time.
2. Practise regularly during the week. I suggest 5-6 days each week, for these minimum times each day:
 - 15-20 min. for young beginners
 - 30-45 min. for Introductory to Gr. 5
 - 45-60 min. for Gr. 6-7
 - 1 hour for Gr. 8
 - 1.5 hours for Gr. 9
 - 2 hours for Gr. 10 and ARCT
3. Bring all your books to each lesson. A vinyl zippered bag works well to keep everything together and organized.
4. Keep your piano in good tune and repair. I recommend Paul Wall at 519-744-2744 as an excellent piano technician.
5. Listen to good music as much as possible at home. Go to concerts of classical music if you can. KW Symphony offers excellent concerts for music lovers of all ages.
